

Heather Barker

I am a dedicated union advocate committed to lifting all voices and building a strong, inclusive union. Passionate about racial justice, I work to end white supremacy, secure a living wage for all members, and create safe, effective environments for educators and students. With extensive experience as an Association Representative, board member, and active participant in various committees, I am determined to continue advancing these vital goals. I would be honored to represent you at the WEA RA and NEA RA, ensuring our union remains a powerful force for positive change, equity, and solidarity at every level.
