

## Matt Burtness

My name is Matt Burtness and this is my eighteenth year teaching and my third year as a building rep at Dunlap Elementary, where I've been since 2011. Last year, I attended my first WEA RA and it was personally and professionally life-altering. One thing we've made a priority with our building rep team is to build capacity in both leadership and learning. It would be a privilege to represent our building and our union at the state and national level, especially with so much on the table for our students. Thank you in advance for the consideration.
