

## Peter Henry

As an officer of the Seattle Substitutes Association, I am asking for the chance to represent substitute educators within the SEA at the WEA and NEA Representative Assemblies. We have been successful in past years in promoting interests of all members - including substitutes - and I would like to continue this advocacy work. At the State level we are focused on supporting subs to access their accrued sick time, as well as health care. At the NEA I am chair of the Guest Educators Caucus and we continue to raise the profile of substitutes.
