

Connor Lee

“First they came for...” and I said, “NO!” because as public servants, we have a duty to defend our colleagues, students, and community from attacks on our collective rights and to uphold shared values underpinning public education. I have done this work (from SPS classrooms to SEA’s boardroom) serving as Board Director, Grievance Review Commissioner, Strike Captain, AR, and other roles. At RAs, I work with other delegates to advocate for our civil rights, fully funding education, and the freedom to teach the truth. I would be honored to represent you again at the WEA and NEA RA.
