

## Jeff Paul

I'm committed to building power at the local, state and federal level to fight for the schools we deserve, especially with what lies ahead the next four years.

I currently serve on the Para Board, I'm a member of EPEC and a delegate to the Labor Council. I've been an AR more than 5 years and have gone to WEA the last two RAs.

Last year at WEA, I wrote two NBIs related to housing for students and educators and, by working with educators around the state, got both passed.

With your support, I look forward to representing Seattle again.
